MIRRORS NATURAL WOOD, WITHOUT THE UPKEEP

The way you choose to decorate your home, both inside and out, makes a statement about you.

For a stately finish that replicates natural cedar wood, there's Cedar Reflections Premium Solid Vinyl Siding. But, unlike wood, it's virtually maintenance free. This means no more scraping, sanding and painting and more time to do the things you enjoy.

Cedar Reflections also carries a Transferable Limited Lifetime Warranty and

the GOOD HOUSEKEEPING Seal, a trusted symbol of consumer

confidence for more than a century.

Your home. It's a reflection of you. Make a beautiful, lasting impression with Cedar Reflections.

Not only does Cedar Reflections look great on the home, it's engineered for lasting performance.

It's one of the thickest panels available, assuring exceptional rigidity, durability and resistance to dents and scratches.

It also features an innovative nailing hem and locking system that helps ensure each panel hangs straight and flat against the wall, and will stay in place, even in high winds.

With so many options available in the Cedar Reflections line, you're truly only limited by your imagination.

Choose from three popular profiles: Double 4 1/2", Dutchlap Double 4 1/2" or Double 5" Vertical, all featuring a natural looking embossed finish that gives the appearance of real cedar board. A 3/4" Butt securely locks the panels in place for a truer, straighter installation.

There's a broad spectrum of colors providing home owners with numerous design choices.

Cedar Reflections comes in a variety of home owner preferred colors that carry a Lifetime Fade Protection Warranty. A special additive, ColorHold™, offers superior fade resistant properties, so the color you select now will retain its original beauty for years to come.

THE SAME ACRYLIC TECHNOLOGY THAT HAS PROTECTED OUR BORDERS AND BRIGHTENED SIGNS CAN NOW GIVE YOUR HOME FADE RESISTANCE PROTECTION.
